

DALLAS SMITH ONLY ONE YOU

There you are, there you go
Tossing that hair back like only you did
Dancing around that summer fire
Like another one of me, like only you did

Something like this comes along you better hold on tight,
So I am tonight

'Cause I've seen a thousand sunsets
And damn they were beautiful
Heard a hundred pretty songs on the radio.
Can't count the times I've been awestruck, taken back.
None of that baby even comes close to
The danger in your blue eyes,
The truth in your three words
That makes this man come loose.
There's only one you

There's only one you, ya

Like a four-leaf clover in the yard
Like a diamond that's never been found
High and and bright as a shooting star
Old guitar with the perfect sound

Something like that comes along you better hold on tight
So I am, that's right

'Cause I've seen a thousand sunsets
And damn they were beautiful
Heard a hundred pretty songs on the radio.
Can't count the times I've been awestruck, taken back.
None of that baby even comes close to
The danger in your blue eyes,
The truth in your three words

Association Varoise de Danse Country

That makes this man come loose.
There's only one you.

There's only one you, ya

'Cause I've seen a thousand sunsets
And damn they were beautiful
Heard a hundred pretty songs on the radio.
Can't count the times I've been awestruck, taken back.
None of that baby even comes close to
The danger in your blue eyes,
The truth in your three words
That makes this man come loose.
There's only one you

There's only one you, ya

There you are, there you go,
Tossing that hair back like only you did
