

GRANGER SMITH AS IT IS IN TEXAS

In a small cafe off 22, I asked a trucker what I should do
I said I need a place where I can settle down
He looked at me with a tired grin, said if I could do it all over again I'd be headin' south
without looking back

Cause I've been on the road from coast to coast and there's one place I love the most
If you ask me for all its worth
There ain't nothin' done on earth as it is in Texas

I moved to Dallas for 5 years straight til I was back on that interstate
Thought I was missing something that I had to find
What I found was reality there's only one place I was meant to be
And under the Texas sun I was driving home

I've been on the road from coast to coast and there's one place I love the most
If you ask me for all its worth
There ain't nothin' done on earth as it is in Texas

I guess I've lost that restless side of me
Cause Lord knows I'll never leave

I've been on the road from coast to coast and there's one place I love the most
If you ask me for all its worth
There ain't nothin' done on earth as it is in Texas
As it is in Texas
As it is in Texas
