

BURNING MAN DIERKS BENTLEY

FEAT BROTHERS OSBORNE

[Verse 1]

Half your life you struggle
Half your life you fly
Half your life makin' trouble
Half your life makin' it right
One day I'm the exception
Most days I'm just like most
Some days I'm headed in the right direction
And some days I ain't even close

[Chorus]

I'm a little bit steady but still a little bit
rollin' stone
I'm a little bit heaven but still a little bit
flesh-and-bone
Little found, little don't-know-where-I-am
I'm a little bit holy water but still a little
bit burning man
Burning man

[Verse 2: TJ Osborne]

I always loved the highway
I just don't run it as fast
I still go wherever the wind blows me
But I always find my way back
I still don't get it right sometimes
I just don't get it as wrong
I still go a little bit crazy sometimes
Yeah, but now I don't stay near as long

[Chorus]

I'm a little bit steady but still a little bit

rollin' stone

I'm a little bit heaven but still a little bit
flesh-and-bone
Little found, little don't-know-where-I-am
I'm a little bit holy water but still a little
bit burning man
Burning man
Still just a burn, burn, burning man
Just a burning man
Woo!

[Bridge]

Maybe I'll go to the desert
If we pass in the night then just hand me a
light
And tell me you burned just like me

[Chorus]

I'm a little bit steady but still a little bit
rollin' stone
I'm a little bit heaven but still a little bit
flesh-and-bone
Little found, little don't-know-where-I-am
I'm a little bit holy water but still a little
bit burning man
Burning man
Still just a burn, burn, burning man
Just a burning man

[Outro]

Burning man
