

# **ROSANNE CASH LAND OF DREAMS**

I heard you calling from the start  
A river runs through both our hearts  
A thousand shades of something new  
I cannot wait to play for you

So play your songs and make them real  
There's a place for all we feel  
And it's closer than it seems  
Come and find your land of dreams

Land of dreams, land of dreams  
Come and find your land of dreams  
And it's closer than it seems  
Come and find your land of dreams

The world is smaller in our eyes  
The city streets and moonlit skies  
The shining waves and evergreens  
I will give you everything

Well you can hear the bells and strings  
Just wait until you make them ring  
And it's closer than it seems  
Come and find your land of dreams
