

# **OLSEN BROTHERS SAN FRANCISCO**

When I look back, along the track  
that left me here, when I'm standing  
there is a place, where love begins  
a certain town I left my heart in.

Chorus:

San Francisco love is all around  
San Francisco you've never let it down  
I have seen you open every door  
San Francisco love is what we're here for

I'm eight miles high, and feeling free  
and in my eyes, the sun is shining  
The Golden Gate and Haight Asbury  
I'm always California dreaming

San Francisco love is all around  
San Francisco you've never let it down  
I have seen you open every door  
San Francisco love is what we're here for

I'm always California dreaming  
San Francisco love is all around  
San Francisco you've never let it down  
I have seen you open every door  
San Francisco love is what we're here for
