

# SUSAN ASHTON CLOSER

It's just me and you and the  
man in the moon shining down.  
A blanket of stars up above  
and a quilt on the ground,  
I've waited so long  
to get you all alone in the dark  
I just wanna hold you  
'til I feel the beat of your heart.

I wanna get Closer, Closer  
Closer to moonlight that your  
bodys wrapped in tonight. Yeah  
Closer to heaven than I've ever been in my life  
Before the nights over I wanna get closer.

My two achin arms have been  
longin to hold you this way.  
these lips have been prayin  
that I'd find the right words to say  
I dont want to own you or try to control how you feel  
I want you to need me believe me the feeling is real.

I wanna get Closer, Closer  
Closer to moonlight that your  
bodys wrapped in tonight. Yeah  
Closer to heaven than I've ever been in my life  
Before the nights over I wanna get closer.

(ooohh)(Yeah)

Ohhhhh ,Closer to moonlight that your  
bodys wrapped in tonight. Ohhh  
Closer to heaven than I've ever been in my life  
Before the nights over I wanna get closer.
