

# **GARTH BROOKS AIN'T GOING DOWN**

You were alone, I asked you to dance  
You could've said no, but you took a chance  
Was it your dress or your perfume  
That made me fall in love with you?

Whatever you did last night  
Whatever you said just right  
Baby let's hit rewind  
Go there all the time  
Try to retrace your steps  
Put your lips on my lips  
Whatever you did do it again.

There was a moon, a couple of stars  
We took a ride in my old car  
One little kiss on lover's lane  
And now my whole world has changed.

Whatever you did last night  
Whatever you said just right  
Baby let's hit rewind  
Go there all the time  
Try to retrace your steps  
Put your lips on my lips  
Whatever you did do it again.

I got lost in your eyes  
But, I think I found paradise.

Whatever you did last night  
Whatever you said just right  
Baby let's hit rewind  
Go there all the time  
Try to retrace your steps  
Put your lips on my lips  
Whatever you did do it again...
