

LEE KERNAGHAN THE OUTBACK CLUB

Works a twelve hour day from sun up til sun
down

He's doing what he can to make the wheels
go round

In a shed down the track he knows how to
bend his back

He's the soul of the earth he's got a heart
of gold

CHORUS

He's a member of the outback club
He don't back down and he don't give up
He's living in the land he loves
Born and raised he's a member of the
outback club

She rides the boundry fences with the
blokes

She's a match for any man alive when she
works the mob

Before the job is done there's another just
begun

A kinda woman any man'd be proud of

CHORUS 2

She's a member of the outback club
She don't back down and she don't give up
She's living in the land she loves
Born and raised she's a member of the
outback club

HO!!!

Works the field or maybe just bringin' out
the coal

They're out there working their fingers to
the bone

Might be trucking the stock or maybe
working the mob

They got one thing in common, the country
heart and soul

CHORUS 3

They're members of the outback club
They don't back down and they don't give up
They're all living in the land they love
Born and raised they're members of the
outback club

CHORUS 4

We're all members of the outback club
We don't back down and we don't give up
We're all living in the land we love
Born and raised we're all members of the
outback club

We're all members of the outback club
We don't back down and we don't give up
We're all living in the land we love
Born and raised we're all members of the
outback club

Yeah we're born and raised we're all
members of the outback club
