

LUCAS HOGE

BOOM BOOM

Lets roll the windows down, you and I
Ill play your favorite song, well drive until
we fly
Gonna make it feel just like, the fourth of
July
Oh girl you know my heart explodes from
the colors in your eyes

Have I ever told you how much I love ya

I was a dead man walkin my heart was barely
beatin
But girl you walked in, and i started feeling
Boom Boom, the rhythm in my chest
You You took away my breath
baby, just say yes
if i make your heart go boom boom
oh if i make your heart go boom boom

Just give me one more kiss, then give me one
more, Kiss
I hope you never stop, I hope this never
ends
gonna loose myself in you, gonna make you
come and find me
Oh girl you know I loose control, I want you
all around me

Have I ever told you, how much i need ya

I wanna let you know, Oh Oh

I was a dead man walking, my heart was
barely beatin
But girl you walked in, and i started feeling
Boom Boom, the rhythm in my chest
You You took away my breath
baby, just say yes
if i make your heart go boom boom
oh, if i make your heart go boom boom Yeah

OH OH yeah

if I never told, how much I love you,
girl I love you.

I was a dead man walkin my heart was barely
beatin
But girl you walked in, and i started feeling
Boom Boom, the rhythm in my chest
You You took away my breath
baby, just say yes
if i make your heart go boom boom
oh if i make your heart go boom boom
do i make your heart go boom boom boom
do i make your heart go boom boom yeah
